

SPEZIAL PILSNER

This hoppy unfiltered pilsner is a refreshing and flavorful take on the classic style. The hops provide a burst of flavor and aroma that's balanced by a clean malt character and a crisp, refreshing finish. It's the next thing to drinking it fresh from the brewery's cellar tanks, as you can taste the beer exactly as the brewer intended. It's a great choice for who want to try something with a little more flavor, but still want the drinkability of a classic pilsner.
