

## AWA {LERVIG LOCAL}

Awa is a dry crisp super crushable lager made with 40% rice, rice is fermenting very easily and leaves a crisp clean body in the beer. Like the Super Dry beers of Japan this version takes it a bit further west with the addition of some very special experimental hops from NZ called Hort9909 (so new thye dont even have a name) these hops give this beer a super floral and limey lemon zestyness. we liked them so much we even dry hopped a bit here.

This beer will quench your thirst and keep your tastebuds excited enough to go back for a few more.

<b>Ingredients</b>	Water, <b>malt</b> , rice, hops, yeast.
<b>ABV</b>	5.5%
<b>Packaging</b>	20L KEYKEGS
