

## CHRISTMAS CREAM

Our Nitro Porter is the perfect festive drink. Brewed to be a light Porter, the added lactose gives the body needed to complement deep chocolate flavour and cinnamon undertones, though it has enough bitterness to balance everything out. We then packaged it into Nitro cans, so you'll get a beautiful, thick cascading foam with all the richness you want and need for a holiday beer, but at 4.7% it will leave enough room in your belly for Christmas dinner.

BTW if you find it on tap it's the carbonated version. So you can try both and see what you like better!
