

LOW KEY

Low Key is the first Micro IPA from LERVIG. Generously hopped with Enigma, Ekuanot and Mosaic, it's bursting with all the bright, juicy, tropical character of our IPAs. And with a remarkable body and mouthfeel (thanks in part to thick dose of oats), you'll hardly believe it clocks in at a very sensible 2.2% ABV. For a low alcohol beer, it compromises nothing on taste, and is an absolutely perfect beer to pair with having stuff to do early the next morning. Low Key confirms the age-old adage: great things come in small ABVs.
