

NEON FRIDAY

Brewing process: We made sure to fika 3 times during the brew day to give it an extra Swedish flavour.

Description: We made this super crushable pale ale for people who want to enjoy a couple drinks at the pub with their friends, but we beefed up the body and mouthfeel so it doesn't seem like you're drinking a 4.2% session beer. Irresponsible amounts of Enigma and HBC431 hops were thrown in to give a tropical hop explosion to what otherwise might be considered a "sensible beer" – your post-Friday beer sessions are going to light up like a neon sign with this beer.
