

NOTHING IS FOR SURE

Other half are one of the most hyped brewers in the world for a good reason, they make killer Double DDH IPAs. We love DDH ipas as much as anyone so we didnt have to think much and we brewed a huge 10% ABV DDH IPA hopped generously with Galaxy Bru1 and Enigma hops. We balanced off the boozyness with lactose and oats. this is a hoppy one folks, sorry to the vegans for the Lactose addition!
