

SASKATOON CHEESECAKE STOUT

A tribute the brewer from Saskatchewan county. David is fond of these little tasty berries from his homeland so we put them in a beer. Not just a beer, a big crazy stout and topped it off with some tangy sweet cheesecake. Brewed for those who want an in your face flavor explosion with a lot more than just a plain beer can offer. Super decadent and supple heavy chocolate with a slight roast will bring the inner child out in you.
