

SUPERSONIC - CRYO

Our fastest IPA just got faster than supersonic... this has gone full Cryo hopped. That's means not only are we passing Mach 1 we are getting into mach3 territory! Cryo Citra, Simcoe and Loral all used to make this beer... in case you don't know what cryo hops are, they are hops that have been made more efficient by cryogenically enriching the lupulin oils and reducing the vegetative matter. So a higher note on the hops!

INGREDIENTS

WATER, **BARLEY**, **OATS**, HOPS, YEAST.

ABV

8.6%

PACKAGING
