

NO WORRIES ORIGINAL

KJ/KCAL Info: There's a typo/mix-up between kJ and kcal on a batch of No Worries cans. It incorrectly states that the drink contains more kcal – it's actually the other way around! Thanks!

Need a worry free alcohol free beer? We got it for you. A lightly hopped and pleasantly refreshing pale ale, fermented with a brewers yeast which cant ferment Maltose. Tasting like a low abv beer due to this process you can enjoy the beer without the effect.
