

NO WORRIES GRAPEFRUIT

KJ/KCAL Info: There's a typo/mix-up between kJ and kcal on a batch of No Worries cans. It incorrectly states that the drink contains more kcal – it's actually the other way around! Thanks!

No Worries Grapefruit, NA beers are the new soda! So, we took our No Worries NA Pale Ale and stepped it up a notch with a touch of grapefruit. We love our Lucky Jack GF version so why not be able to enjoy one before you drive home from a meeting and not worry about it. This NA beer has all the taste and mouth feels of a 5% Fruity pale ale without the need for pain killers in the morning. Perfect for New years eve!
