

HYPE DREAM MANGO & PASSIONFRUIT

Hype dream is a series combining a thick fruit profile, fresh acidity and a soft lactose finish. This version has mango and passionfruit puree in the forefront to give a burst of tropical fruits balanced with a smooth finish from the lactose and flaked oats. At 6.5% its a true pastry sour hype dream. Hype dream is the first series of beer to move out of our playground Lervig Local and over to the main brewery!
