GLUTEN FREE DOUBLE DRY-HOPPED IPA.
COLLABORATION WITH VERDANT.
ALC. 6.5% VOL.

Verdant are one of the best at IPAs in the UK, they don't make a lot of beer due to capacity so we made a huge batch of it here at the giant brewhouse. We kept things simple except for one aspect, which is new to both of us, we made this a Gluten free version of a DDH IPA, so we used the enzymes to get rid of these gluten proteins thus eliminating the allergic reaction for those with Celiac disease. The one effect I'm curious about is if the magic Haze we all love these days will be gone. Since the beer is still maturing as I write this we won't know til its done.

Brewed with Citra; Cryo Simcoe and Azacca hops this will still pack a juicy punch to you even if you love the glutens.
